SUBJECT INDEX

Absolute rate data
measurement of absolute rate data for reactions of atomic rubidium, $Rb(5^2S_{1/2})$, with CH_3Cl, CH_3Br, C_2H_5Br, CF_3Cl, CF_2Cl_2, $CFCl_3$, CF_3Br and CF_4 by time-resolved atomic resonance absorption spectroscopy, 1
Absorption cross-section
measurement of the absorption cross-section of peroxynitric acid between 210 and 330 nm in the range 253 - 298 K, 17
Acridine *N*-oxides
radical mechanism in the photoinduced oxygen transfer from acridine *N*-oxides to cyclohexene, 53
Actinometry
photorheological effects in cationic and non-ionic micellar solutions and their application to actinometry, 435
Activation
diffusion- and activation-controlled electron transfer reactions sensitized by colloidal cadmium sulphide, 397
Amines
excited state deprotonation reactions of aromatic amines: a diffusion-controlled process, 61
Anthracene
synthesis and [4 + 4] photodimerization of 9-trifluoromethylanthracene, 341
Arylhex-2-enes
intramolecular meta photocycloaddition of 6-arylhex-2-enes, 317

Benzene
the photolysis of 2,4,5,6-tetrachloro-1,3-dicyanobenzene, 129
Benzophenone
effect of ring structure on the photoreactivity of benzophenone-like molecules: a laser photolysis study of 10,10-dimethylanthrone and dibenzosuberone, 345
Benzophenoneimine
product study of the photolysis of benzophenoneimine and fluorenoneimine, 115
Bipyridine
mixed-ligand nickel(II) complexes of 2,2′-bipyridine and 1,10-phenanthroline with 3,4-dimercaptotoluene as quenchers of $^1O_2$, 249
photoionization of 2,2′-bipyridine in aqueous solution, 313

Cadmium sulphide
diffusion- and activation-controlled electron transfer reactions sensitized by colloidal cadmium sulphide, 397
Catalysis
efficient photocatalytic degradation of chloral hydrate in aqueous semiconductor suspension, 155
environmental photochemistry: is iron oxide (hematite) an active photocatalyst? A comparative study: α-Fe_2O_3, ZnO, TiO_2, 161
Chloral hydrate
efficient photocatalytic degradation of chloral hydrate in aqueous semiconductor suspension, 155
Chlorine
gas phase studies of substituted methylperoxy radicals: the UV absorption spectrum and self-reaction kinetics of $CH_3OCH_2O_2$ — the reaction of CF_2ClO_2 with Cl atoms, 187
Chlorocuprate(II)
geminate-pair scavenging mechanism in photochemical reactions of chlorocuprate(II) complexes in acetonitrile solutions containing alcohols, 243
Chromophores
photoeffects in thin film chromophore–quencher assemblies: variations in the light absorber, 419
CIDNP
the vacuum UV photolysis of aqueous solutions of two saturated diterti-

© Elsevier Sequoia/Printed in The Netherlands

ary ethers: a product and CIDNP study, 219
Cobalt
quantum yield determinations on the $[Co(EDTA)]^{-} \cdot I^{-}$ system, 233
Colloids
diffusion- and activation-controlled electron transfer reactions sensitized by colloidal cadmium sulphide, 397
Cyclohexene
radical mechanism in the photoinduced oxygen transfer from acridine *N*-oxides to cyclohexene, 53
Cyclooctene
high photostationary state trans/cis ratios upon ester-sensitized photoisomerization of cyclooctene, 465

Decay kinetics
structural effects in the decay kinetics of 1-naphthyl derivative–triethylamine exciplexes, 265
Degradation
efficient photocatalytic degradation of chloral hydrate in aqueous semiconductor suspension, 155
Deprotonation
excited state deprotonation reactions of aromatic amines: a diffusion-controlled process, 61
Diarylethylenes
concerning interconversion of rotamers of *trans*-1,2-diarylethylenes in the triplet state, 95
Dibenzosuberone
effect of ring structure on the photoreactivity of benzophenone-like molecules: a laser photolysis study of 10,10-dimethylanthrone and dibenzosuberone, 345
Diffusion
diffusion- and activation-controlled electron transfer reactions sensitized by colloidal cadmium sulphide, 397
excited state deprotonation reactions of aromatic amines: a diffusion-controlled process, 61
Dimercaptotoluene
mixed-ligand nickel(II) complexes of 2,2′-bipyridine and 1,10-phenanthroline with 3,4-dimercaptotoluene as quenchers of $^1O_2$, 249
Dimethylanthrone
effect of ring structure on the photoreactivity of benzophenone-like molecules: a laser photolysis study of 10,10-dimethylanthrone and dibenzosuberone, 345
Diphenylcyclopentenes
the influence of substituents on the photocyclodehydrogenation of 1,2-diphenylcyclopentenes II: metal substituents, 353
Ditertiary ethers
the vacuum UV photolysis of aqueous solutions of two saturated ditertiary ethers: a product and CIDNP study, 219
Dyes
photophysics and photochemistry of phenosafranin dye in aqueous and acetonitrile solutions, 291

EDTA
quantum yield determinations on the $[Co(EDTA)]^{-} \cdot I^{-}$ system, 233
use of the thionine–EDTA system in photogalvanic cells for solar energy conversion, 81
Electron transfer
diffusion- and activation-controlled electron transfer reactions sensitized by colloidal cadmium sulphide, 397
effect of viscosity on the photoionization of victoria blue B leucocyanide: an intramolecular electron transfer reaction, 303
Environmental photochemistry
environmental photochemistry: is iron oxide (hematite) an active photocatalyst? A comparative study: α-Fe_2O_3, ZnO, TiO_2, 161
Esters
high photostationary state trans/cis ratios upon ester-sensitized photoisomerization of cyclooctene, 465
Exciplexes
structural effects in the decay kinetics of 1-naphthyl derivative–triethylamine exciplexes, 265

Flavone
luminescence behaviour of 7-hydroxyflavone: temperature-dependent effects, 175
Fluorenoneimine
product study of the photolysis of benzophenoneimine and fluorenoneimine, 115

N-Furfurylacetamide
sensitized photo-oxidation: acid-photosensitized oxidation of *N*-furfurylbenzamide and *N*-furfurylacetamide, 375
N-Furfurylbenzamide
sensitized photo-oxidation: acid-photosensitized oxidation of *N*-furfurylbenzamide and *N*-furfurylacetamide, 375

Geminate-pair scavenging
geminate-pair scavenging mechanism in photochemical reactions of chlorocuprate(II) complexes in acetonitrile solutions containing alcohols, 243

Hematite
environmental photochemistry: is iron oxide (hematite) an active photocatalyst? A comparative study: α-Fe_2O_3, ZnO, TiO_2, 161
Heterocyclic compounds
quantum yields of 3MLCT excited state formation and triplet–triplet absorption spectra of ruthenium(II) tris-chelate complexes containg five- and six-membered heterocyclic moieties, 277

Industrial photochemistry
industrial photochemistry XIII: determination of the most suitable irradiation conditions for molecular photoreactions, 447
Iron
environmental photochemistry: is iron oxide (hematite) an active photocatalyst? A comparative study: α-Fe_2O_3, ZnO, TiO_2, 161
Irradiation conditions
industrial photochemistry XIII: determination of the most suitable irradiation conditions for molecular photoreactions, 447

Kinetics
mechanism and kinetics of the methylene-blue-sensitized photo-oxygenation of polydienes, 43

Laser dyes
N-substituted 1,8-naphthalimide derivatives as high efficiency laser dyes, 259

Lucigenin
some aspects of the lucigenin light reaction, 337
Luminescence
luminescence behaviour of 7-hydroxyflavone: temperature-dependent effects, 175

Mechanism
mechanism and kinetics of the methylene-blue-sensitized photo-oxygenation of polydienes, 43
Methylperoxy radicals
gas phase studies of substituted methylperoxy radicals: the UV absorption spectrum and self-reaction kinetics of $CH_3OCH_2O_2$ — the reaction of CF_2ClO_2 with Cl atoms, 187
Micelles
photorheological effects in cationic and non-ionic micellar solutions and their application to actinometry, 435
MLCT excited state
quantum yields of ^{3}MLCT excited state formation and triplet–triplet absorption spectra of ruthenium(II) tris-chelate complexes containing five- and six-membered heterocyclic moieties, 277
Molybdenum
flash photolysis of aqueous solutions of bis(μ-oxo) bis(oxomolybdenum-(V)), 69

Naphthalene
electronic energy relaxation of 2-chloronaphthalene vapour excited in the region 314 - 283 nm, 33
Naphthalimide
N-substituted 1,8-naphthalimide derivatives as high efficiency laser dyes, 259
Naphthyl derivatives
structural effects in the decay kinetics of 1-naphthyl derivative–triethylamine exciplexes, 265
m-Nitrostyrenes
photochemical tandem addition of water and oxygen to the alkene moiety of *m*-nitrostyrenes, 387
Nickel
mixed-ligand nickel(II) complexes of 2,2′bipyridine and 1,10-phe-

nanthroline with 3,4-dimercaptotoluene as quenchers of $^1O_2$, 249
Non-radiative deactivation
non-radiative deactivation channels of molecular rotors, 87
Oxides
environmental photochemistry: is iron oxide (hematite) an active photocatalyst? A comparative study: α-Fe_2O_3, ZnO, TiO_2, 161
Oxygen
radical mechanism in the photoinduced oxygen transfer from acridine *N*-oxides to cyclohexene, 53
Peroxynitric acid
measurement of the absorption cross-section of peroxynitric acid between 210 and 330 nm in the range 253 - 298 K, 17
Phenanthroline
mixed-ligand nickel(II) complexes of 2,2′-bipyridine and 1,10-phenanthroline with 3,4-dimercaptotoluene as quenchers of $^1O_2$, 249
Phenosafranin
photophysics and photochemistry of phenosafranin dye in aqueous and acetonitrile solutions, 291
Photocycloaddition
intramolecular meta photocycloaddition of 6-arylhex-2-enes, 317
Photocyclodehydrogenation
the influence of substituents on the photocyclodehydrogenation of 1,2-diphenylcyclopentenes II: metasubstituents, 353
Photodimerization
synthesis and [4 + 4] photodimerization of 9-trifluoromethylanthracene, 341
Photodissociation
flash photolysis of 2,2′,3,3′,5,5′,6,6′-octaphenyl-4,4′-bi-4*H*-pyran: evidence for radical formation by photodissociation, 171
Photogalvanic cells
use of the thionine–EDTA system in photogalvanic cells for solar energy conversion, 81
Photoionization
effect of viscosity on the photoionization of victoria blue B leucocyanide: an intromolecular electron transfer reaction, 303
photoionization of 2,2′-bipyridine in aqueous solution, 313
Photoisomerization
high photostationary state trans/cis ratios upon ester-sensitized photoisomerization of cyclooctene, 465
Photolysis
228.8 nm photolysis of 1,1,1-trichloroethane, 199
effect of ring structure on the photo - reactivity of benzophenone-like molecules: a laser photolysis study of 10,10-dimethylanthrone and dibenzosuberone, 345
flash photolysis of 2,2′,3,3′,5,5′,6,6′-octaphenyl-4,4′-bi-4*H*-pyran: evidence for radical formation by photodissociation, 171
flash photolysis of aqueous solutions of bis(μ-oxo) bis(oxomolybdenum-(V)), 69
product study of the photolysis of benzophenoneimine and fluorenoneimine, 115
the photolysis of 2,4,5,6-tetrachloro-1,3-dicyanobenzene, 129
the vacuum UV photolysis of aqueous solutions of two saturated ditertiary ethers: a product and CIDNP study, 219
Photo-oxidation
sensitized photo-oxidation: acid-photosensitized oxidation of *N*-furfurylbenzamide and *N*-furfurylacetamide, 375
Photo-oxygenation
mechanism and kinetics of the methylene-blue-sensitized photo-oxygenation of polydienes, 43
Photoreactivity
effect of ring structure on the photoreactivity of benzophenone-like molecules: a laser photolysis study of 10,10-dimethylanthrone and dibenzosuberone, 345
Photorheological effects
photorheological effects in cationic and non-ionic micellar solutions and their application to actinometry, 435
Photostationary state
high photostationary state trans/cis ratios upon ester-sensitized photoisomerization of cyclooctene, 465

Polydienes
mechanism and kinetics of the methylene-blue-sensitized photo-oxygenation of polydienes, 43
Pyran
flash photolysis of 2,2′,3,3′,5,5′,6,6′-octaphenyl-4,4′-bi-4*H*-pyran: evidence for radical formation by photodissociation, 171

Quenchers
mixed-ligand nickel(II) complexes of 2,2′-bipyridine and 1,10-phenanthroline with 3,4-dimercaptotoluene as quenchers of $^1O_2$, 249
photoeffects in thin film chromophore–quencher assemblies: variations in the light absorber, 419

Relaxation
electronic energy relaxation of 2-chloronaphthalene vapour excited in the region 314 - 283 nm, 33
Ring structure
effect of ring structure on the photoreactivity of benzophenone-like molecules: a laser photolysis study of 10,10-dimethylanthrone and dibenzosuberone, 345
Rotamers
concerning interconversion of rotamers of *trans*-1,2-diarylethylenes in the triplet state, 95
Rotors
non-radiative deactivation channels of molecular rotors, 87
Rubidium
measurement of absolute rate data for reactions of atomic rubidium, $Rb(5^2S_{1/2})$, with CH_3Cl, CH_3Br, C_2H_5Br, CF_3Cl, CF_2Cl_2, $CFCl_3$, CF_3Br and CF_4 by time-resolved atomic resonance absorption spectroscopy, 1
Ruthenium
quantum yields of ^{3}MLCT excited state formation and triplet–triplet absorption spectra of ruthenium(II) trischelate complexes containing five- and six-membered heterocyclic moieties, 277

Self-reaction
gas phase studies of substituted methylperoxy radicals: the UV absorption spectrum and self-reaction kinetics of $CH_3OCH_2O_2$ — the reaction of CF_2ClO_2 with Cl atoms, 187
Semiconductors
efficient photocatalytic degradation of chloral hydrate in aqueous semiconductor suspension, 155
Solar energy
use of the thionine–EDTA system in photogalvanic cells for solar energy conversion, 81
Structural effects
structural effects in the decay kinetics of 1-naphthyl derivative–triethylamine exciplexes, 265
Styrylanthracene
absorption and fluorescence spectra of *cis*-styrylanthracene derivatives: correlation with their photochemistry, 109
Substituents
the influence of substituents on the photocyclodehydrogenation of 1,2-diphenylcyclopentenes II: metasubstituents, 353
Suspension
efficient photocatalytic degradation of chloral hydrate in aqueous semiconductor suspension, 155

Tandem addition
photochemical tandem addition of water and oxygen to the alkene moieity of *m*-nitrostyrenes, 387
Temperature effects
luminescence behaviour of 7-hydroxyflavone: temperature-dependent effects, 175
Thin films
photoeffects in thin film chromophore–quencher assemblies: variations in the light absorber, 419
Thionine
use of the thionine–EDTA system in photogalvanic cells for solar energy conversion, 81
Time-resolved spectroscopy
measurement of absolute rate data for reactions of atomic rubidium, $Rb(5^2S_{1/2})$, with CH_3Cl, CH_3Br, C_2H_5Br, CF_3Cl, CF_2Cl_2, $CFCl_3$, CF_3Br and CF_4 by time-resolved atomic resonance absorption spectroscopy, 1

Trichloroethane
228.8 nm photolysis of 1,1,1-trichloroethane, 199
Triethylamine
structural effects in the decay kinetics of 1-naphthyl derivative–triethylamine exciplexes, 265
Triplet–triplet absorption
quantum yields of ^{3}MLCT excited state formation and triplet–triplet absorption spectra of ruthenium(II) tris-chelate complexes containing five- and six-membered heterocyclic moieties, 277
Victoria blue
effect of viscosity on the photoionization of victoria blue B leucocyanide: an intramolecular electron transfer reaction, 303
Viscosity
effect of viscosity on the photoionization of victoria blue B leucocyanide: an intramolecular electron transfer reaction, 303
